-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-25 and 55-60, drawn to a composite material.

Group II, claim(s) 26-54, drawn to a method for producing a composite material.

Group III, claim(s) 61, drawn to a prosthetic device.

2. Although claims 55-59 recite both a composite and a method, the Examiner will assume that the claims are meant to recite a composite, since the claims depend upon independent claim 1, which is itself a composite. Correction should be made to these claims so that they are not reciting both a composite and a method to avoid indefiniteness.

3. The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claim 1 is either obvious or anticipated by U.S. Patent No. 4,662,887 to Turner. Turner discloses the use of a composite material comprising an inorganic filler material and a fibrous polymeric material characterized in that the fibrous material comprises oriented polymeric fibers fused together to form a continuous matrix while retaining fibrous structure in the composite (column 3, lines 8-22 and 35-52). Accordingly, the special technical feature linking the two inventions, the continuous matrix formed by fusing the polymeric fibers, does not provide a contribution over the prior art, and no single general inventive concept exists. Therefore, restriction is appropriate.

4. A telephone call was made to Art Crawford on August 12, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeremy R. Pierce whose telephone number is (571) 272-1479. The examiner can normally be reached on Monday-Thursday 7-4:30 and alternate Fridays 7-4.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel Morris can be reached on (571) 272-1478. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
